

# ELIMINATING OBSTACLES CREATED BY GOVERNMENT

**B**urdensome government regulations can adversely impact all aspects of our lives, from our ability to find a job to how we spend free time with our families and friends. Excessive and unnecessary government-imposed guidelines can also negatively affect our family budgets.

This session, we will reform and streamline government regulations by:

## ENHANCING LEGISLATIVE OVERSIGHT OVER ADMINISTRATIVE RULES

1. Prohibiting Rules More Stringent than the Feds: Previous legislative attempts have been made to prevent the adoption of department administrative rules that are more stringent than federal standards. The House will advance this important reform.
2. Implementing a Mandatory Sunset on All New Administrative Rules: The creation of a new default sunset for all new administrative rules will heighten legislative oversight over a runaway bureaucracy.
3. Enacting Consequences for Regulatory Delays: Taxpayers deserve prompt, efficient and expedited service for the regulatory trials that are placed on them by governments. State departments should be held accountable for their inaction. Consequences such as refunding user fees for applications or granting permits and licenses if a department fails to meet a specific timeframe will hold government more accountable for the quality of service it provides.

## REFORMING AUTO NO-FAULT TO MAKE AUTO INSURANCE MORE AFFORDABLE WHILE PROVIDING QUALITY CARE TO AUTO ACCIDENT VICTIMS

1. Reforming Auto No-Fault: Michigan has the second-highest car insurance premiums in the country and is one of less than a dozen that operate under a no-fault system of insurance liability. Reforms to Michigan auto no-fault must be made to control costs for motorists.
